

knerds

the iOS game

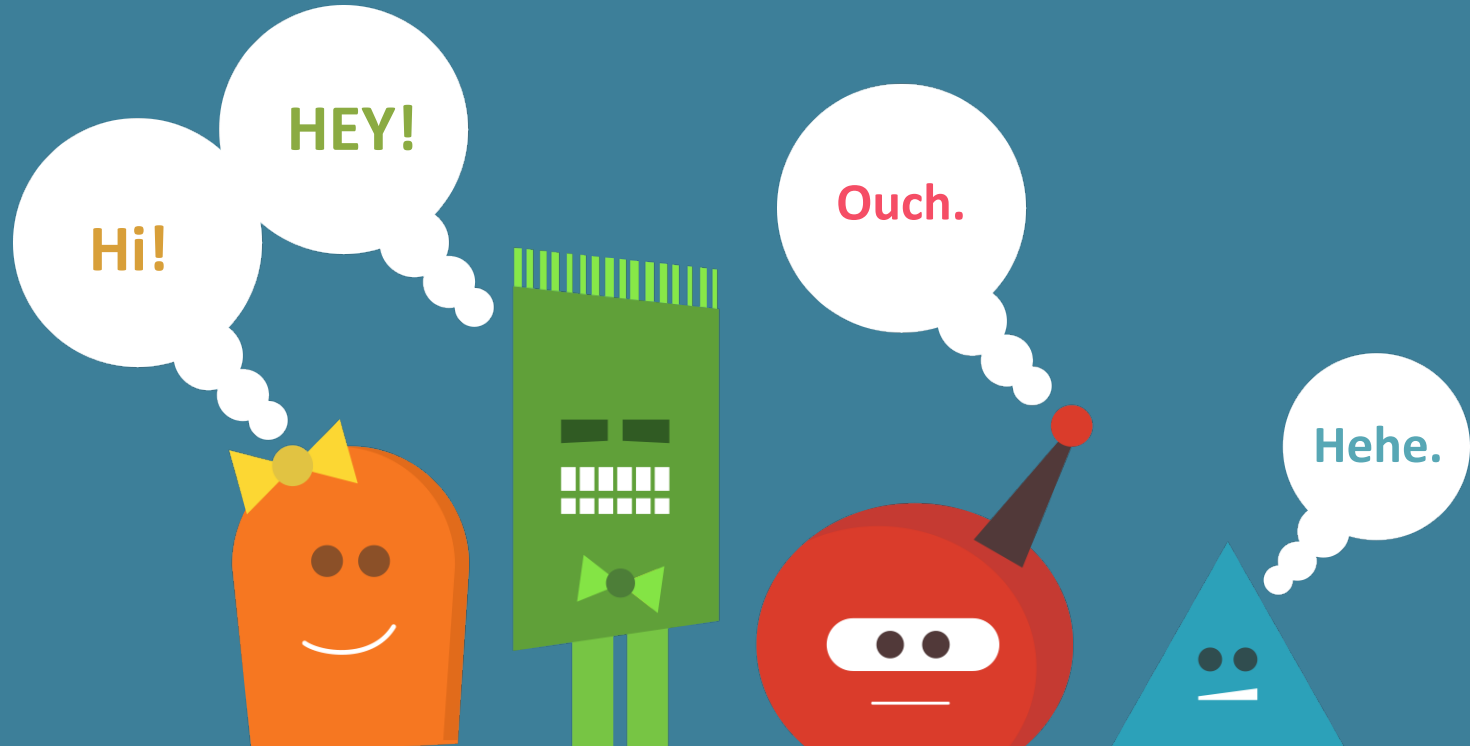

The **knerds** are on a top-secret mission from their home world to bring an important message to the Earthlings.

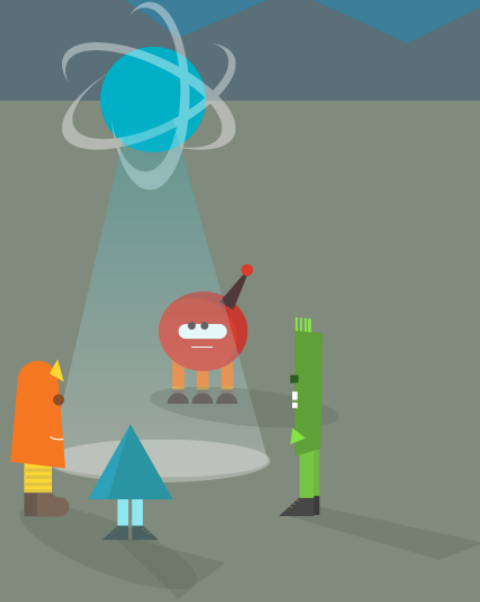

But their ship crash-lands
on Earth, and they can't
remember ANYTHING!

They can't remember their important message, or even how to repair their spaceship to go back home.

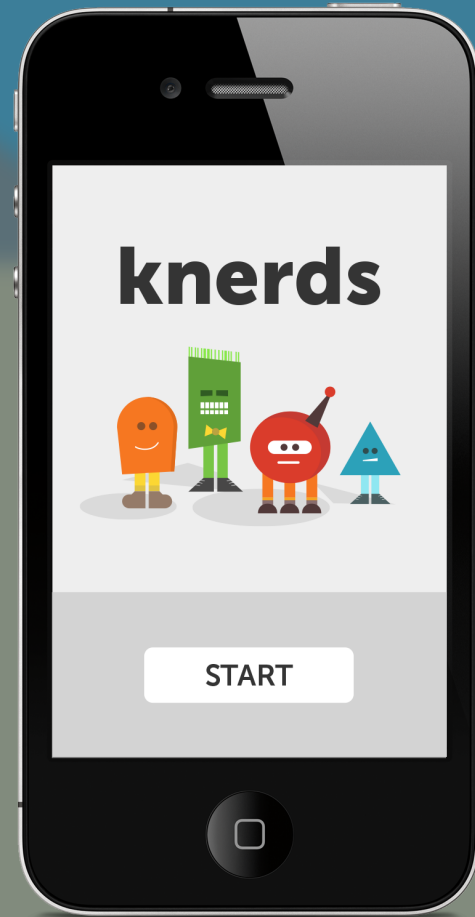

But they do have something
that can help...

...they have Knewton.

When a **knerd** uses Knewton,
they solve puzzles and play
challenges to try to re-learn
their skills.

If they use Knewton, the **knerds** might be able to remember their message before it's too late.

Will you help them?
